The Lookout

December 1962 has seen through a number of Training Courses in the State for prospective Scouters, in Cubbing as well as Scouting. The State Headquarters has to thank the enthusiastic State Organising Commissioner and the similar Assistant State Organising Commissioners (Scouts) and the various Deputy Directors of Public Instruction, District Educational Officers and Head Masters of Schools concerned for arranging to relieve an adequate number of willing teachers to take up these courses. In fact in some of these courses the prescribed maximum number of forty (40) for a course has been exceeded. As State Commissioner (Scouts) while I appreciate such numbers over 40, as a member of the National Training Team and bound by the rules and advice set in the National "Scheme of Training" I am afraid this should not be permitted to continue.

All the 'Members of the State Training Team' (D.C.Cs. & A.D.C.Cs.) would do well in future to accept only 40 candidates as the maximum on any course while adhering to 12 as the minimum.

Any number between 24 and 32 would be ideal to give the candidates on the course an idea of the true strength of a Cub Pack or a Scout Troop which he is expected to start and run himself with or without an Assistant Scouter later. Even 40 on a Training Course would give an erroneous impression and some scouters try to increase their Pack or Troop strength to over 32. The National Headquarters have been very elastic in fixing up the maximum and any attempt to stretch further would only result in helping to snap this elastic limit.

Attention to the individual 'Boy' by his Scouter is the foundation for success of Scouting. The Founder, B-P., said that while he could pay full attention to the individual 'Boy' if only his Troop's strength was 16, he thought a Scouter could be twice as capable and set 32 as the maximum. Any number more than this he thought could not be a Cub Pack or a Scout Troop.

In the present National Emergency this Movement all over the country has done fairly well and our State has contributed its share. A few of the Open Groups have been doing commendable work. Yet a lot more has to be done by all of us and this should go on for ever. The 'Scout Promise' taken by all of us when we were invested into the Movement is not for emergencies, as such, but for our lives' times and in everything that we have to do daily.

Finally I wish all the Members of the Movement, Guides and Scouts, Guiders and Scouters all the best for 'Good Hunting' in 1963, and God's blessings so that we can keep ourselves healthy in body and mind and carry out 'the ten points of the Scout-Guide Law' in our daily lives.

Rule 255 of the A.P.R.O., Bharat Scouts and Guides be a constant reminder to every Scouter and Guider.

TECHNICAL EFFICIENCY is an important factor in Scouting. Mere Tenderfoot Scouts are of no credit to our organisation. Progress and efficiency are important. The tests, be it for Cubs or Scouts, are so devised to suit the physical and mental abilities of the boys, so then why is progress lacking? The desire to work for badges on the part of the boys is there but Scouters should inspire them to do so, afford opportunities, provide instructors, arrange meetings etc., This apart, regular weekly meetings and at least one meeting a month in uniform, inter-patrol contests, inter unit meetings outings, week end camps and expeditions, should all be planned well before hand, so that, continuous activities are there covering the whole year. Let us remember a Boy Scout will not be really useful, unless he knows how to help, whom to approach, what do to, where to go! Let us resolve in 1963 to **Press Forward** for increased efficiency.

BE PREPARED - True to our moto 'Be Prepared' the members of our movement, young and old, are astir with activities in many ways. Reports received from several districts show, that in the present juncture our Scouts and Guides are 'Second to none' in taking up training, collecting warm clothing as well as money etc., etc., We **PLEDGE OUR LOYALTY IN THE SERVICE OF THE NATION.**

REVIEW : Scout Tests - 1st Class by 'Jayanta' priced at Rs. 1/50 is a very useful publication compact in size, containing information as per latest APRO. Surely, this book will greatly assist Scouts to qualify for the 1st class badge. The author has already published two other works viz : Tenderfoot Tests and Second class tests. Copies of all these are available at The Mysore Scout Co-operative Society Ltd., Post Box 723, Bangalore-2.

Philatelic Notes

In the past months of this year 1962 several countries have brought out their special issues of postage stamps honouring the Boy Scout and Girl Guide Movements. These stamps are briefly referred to here, which, it is hoped, will be of interest not only to philatelists who specialise in this thematic subject, but also generally to members belonging to these two great Youth movements.

Barbados—A set of three stamps marking the Golden Jubilee of the Boy Scouts Association.

Canal Zone (Panama)—One stamp to honour the Golden Jubilee of the Girl Scouts of America.

that charming smile. which all of us who saw and met her at the Third All-India Jamboree held in Bangalore in December 1960 remember so well.

Wood Craft & Field Craft

Commandos are the crack Guerilla fighters of the Army. They are selected on grounds of their being strong, quick in thinking, always on the alert and resourceful.

All commando troops undergo special training. For months they live in bivouac tents. They must learn to find their own food by hunting. They become experts with their knives, shooting with rifle, machine guns, boxing and jujutsu. In addition he is taught to swim long distances in full kit. He can also walk 30 to 40 miles a day and go without food and water for long periods.

The Commandos have played an important part in the last war. They have made many raids on enemy, creeping in silently at nights, destroying enemy gun positions, blowing up ammunition dumps wrecking bridges etc. The enemy will be afraid that a commando attack might be made at any moment. The enemy could never feel safe.

A Scout can become a commando easily because he will be taught every other thing except using of weapons when he undergoes Scout Training. A Scout is a master in wood craft. Wood craft is the knowledge of animals and nature, following the tracks and creeping to them. It includes the ability to see and read the tracks, understand them and find his way in the jungle or desert. Wood craft helps to stimulate the powers of deduction. Scouts will also be trained in pioneering, exploration and other items of open air and out door projects. Peace Scouts have to be as well prepared as any war Scouts. Our peace Scouts can become excellent commandos if they only practise the use of weapons. Even otherwise they have very good opportunities to serve in the war field. It is expected that a large number of Scouts trained in wood craft and pioneering could offer their services in this National Emergency.

What Camp Life can Teach

The Experiences of a Scout Master Trainee

Sri B. K. Sivasankara Sastry, a trainee at the Scout Preliminary course at Bidar, states that at first he felt a fish out of water when he had to live under canvas. He also says that he was used to an air of superiority. He further writes that he once made up his mind to get away from the camp once and for all. With all that, he acknowledges that Scouting taught him brotherhood, team spirit, perseverance, courage and the art of learning things by doing. He now feels that the training he received was an eye opener and feels that he could smile even under difficulties and more than that he could practise to be pure in thought, word and deed.

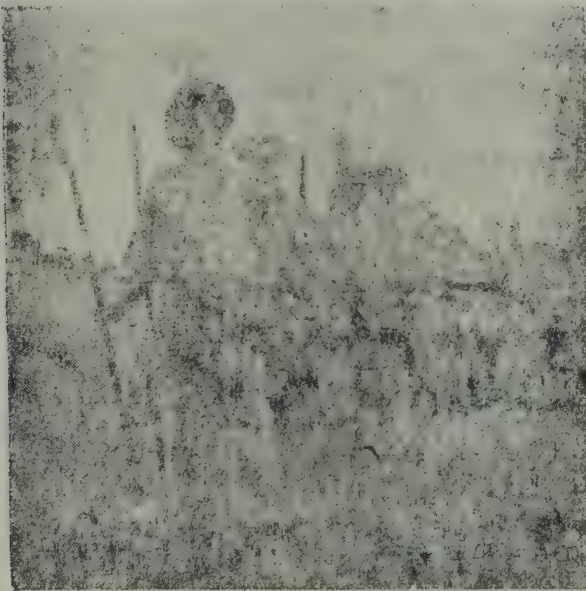

We will be very happy to hear from him the progress of his troop which he might have started by this time. As leadership is not taught but caught, we are sure that he will find right leaders for the spread of this world movement.

Gesture from American Boy Scouts

The Boy Scouts of America, National Supply Service Division, New Brunswick, New Jersey have sent some books, scarfs and badges to us. We acknowledge their receipt with thanks.

He was also very happy to associate himself with the Scout and Guide activities as he was a Scout himself and knew the potentialities of the movement.

Dr. B. M. Madhava Rao, Headquarters Commissioner for Social Service, proposed a vote of thanks.

BELGAUM

On 2nd December 1962 at 9-30 P.M. when it was raining heavily, a motor van fell down in a field about 10 ft. down below a steep curve in Belgaum. It was a serious accident. Our two Scouters Sri S. B. Kurne and Sri H. S. Gajanan Rao who were fortunately there at that time jumped down the road immediately and extricated all the inmates of the van. As it was late in the night passers by could not be seen. With the help of a few people that came that way, these two Scouters were able to bring the passengers to the road. All of them were unconscious and some of them profusely bleeding. After rendering first aid to the injured they were able to take the injured to the Civil Hospital which is about $2\frac{1}{2}$ miles from the place of accident. Some cars which were passing that way were requisitioned for the purpose. If it was not for these two Scouters who were there at that time this accident could not have been noticed for some time more. The association feels proud of the timely services rendered by Bro. S. B. Kurne and Bro. H. S. Gajanan Rao.
